

BOWLER'S EDUCATION EQUIPMENT AWARD

Award Purpose

To support the implementation of Bowler's Ed, the In-School bowling program from the International Bowling Campus' Youth Development. This program provides opportunities to teach students the sport of bowling with instructional curriculum and equipment available to use in school or other facilities.

The in-school bowling setting will provide an opportunity for students to learn a lifetime sport in a small group setting offering immediate assistance and individualized instruction. The atmosphere created will mirror a true bowling experience and provide an environment to enhance each student's confidence, responsibility and motivation in the learning experience for both athletic and academic performance.

Students who may be unable to compete on another playing field can find athletic success in bowling. Not only can the Bowler's Ed program impact children in a physical education class, but it also brings a unique activity to school-wide and community events.
